Assembly	Fire Detection System	Mercantile	Storage Tank
Business	Fire Suppression System	Mobile Homes	Temporary Structure
Dry Hydrant Installation	Fireworks	Permit Renewal	Site Plan Review

Other (Specify) _____

Application of seals. When construction documents are submitted, the application of seals and signatures on those documents shall be required as follows:

- a) **All construction documents submitted** with an application for a building permit shall bear an original embossed or wet ink seal and original signature on the front sheet of each discipline within each set of construction documents; or
- b) The registered design professional for each discipline shall place his original seal and signature upon the cover sheet of each set of construction documents.

All other sheets of the construction documents, other than specifications or calculations, shall bear the original embossed, wet ink or mechanically reproduced seal of the registered design professional. Any addendum or modifications submitted for changes to the construction documents shall also bear an original seal and signature by the registered design professional. Such changes shall be clearly indicated.

Two (2) sets of plans are to be submitted with this application (one to be returned marked "Approved" upon receipt of payment of the permit fee). A permit will become null and void if construction work is not started within six (6) months of the date of issue. **A charge of 50% of the original amount paid will be imposed for all requested permit refunds.** All required inspections by the Eureka Fire Protection District must be approved, by this office, before occupancy or use of the structure will be permitted. If additional inspections are needed re-inspection fees may apply and must be paid prior to the required re-inspection.

The Building Permit Card must be posted on the construction site and visible from the street, or inspections will not be made, and thus will be considered a failed inspection. A 24 hr. notice is required for all scheduled inspections. Fire District approved plans must remain on site and readily available at all times.
